

# European Cryogenics Days, academia meets industry on developments in cryogenics

## Thursday 9 June 2016

**Cryogenic instrumentation (chairperson: Agnieszka Piotrowska) - 503/1-001 - Council Chamber (16:15 - 18:20)**

time	[id] title	presenter
16:15	[11] Instrumentation for cryogenics at CERN	Dr CASAS-CUBILLOS, Juan
16:45	[12] Superconducting devices based on Josephson junctions for metrology and general instrumentation	Dr BEYER, Jörn
17:05	[13] Optical Fiber Sensors for Cryogenic applications	Dr INAUDI, Daniele
17:25	[14] Coulomb Blockade Thermometer: a primary device for sub-kelvin measurements	Dr MESCHKE, Matthias
17:45	[26] The application of the PED on the design codes for cryogenic equipment, and future developments foreseen in this field	Dr BARTHELEMY, Herve
18:05	[15] Questions and Answers
