

6th Asian Triangle Heavy Ion Conference

Thursday, 18 February 2016

Session 20: Transport Properties - Conference Hall 1 (16:10 - 17:30)

-Conveners: Bindu Anubha Bambah

time	[id] title	presenter
16:10	[41] Third-order viscous corrections to entropy four-current and relativistic hydrodynamics	CHATTOPADHYAY, Chandrodoy
16:30	[45] Bulk viscosity of hadronic gas	SARWAR, Golam
16:50	[35] Transport coefficients of a two component hadronic gas consisting of pions and nucleons	GANGOPADHYAYA, Utsab
17:10	[8] Quark number density and susceptibility calculation with one correction in mean field potential	SINGH, S. Somorendro
