

# 6th Asian Triangle Heavy Ion Conference

## Thursday, 18 February 2016

### Session 21: Detectors - Conference Hall 2 (16:10 - 17:30)

-Conveners: In Kwon Yoo

time	[id] title	presenter
16:10	[31] Effect of geometrical inhomogeneity on electron and ion transmission of GEM-based detectors: A numerical study	BHATTACHARY, Purba
16:30	[61] Track distortion in a micromegas based large prototype of a Time Projection Chamber for the International Linear Collider	BHATTACHARYA, Deb Sankar
16:50	[9] Characterisation of pALPIDE-2 chips at Pusan	EUM, Jongsik
17:10	[64] Large revealing similarity in multihadron production in nuclear and particle collisions	MISHRA, Aditya Nath
