# How to...

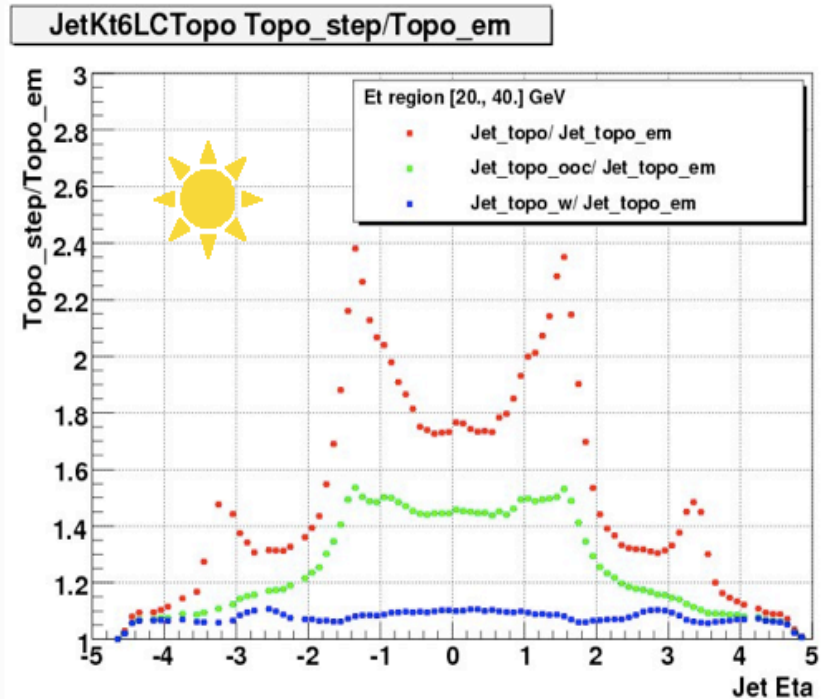

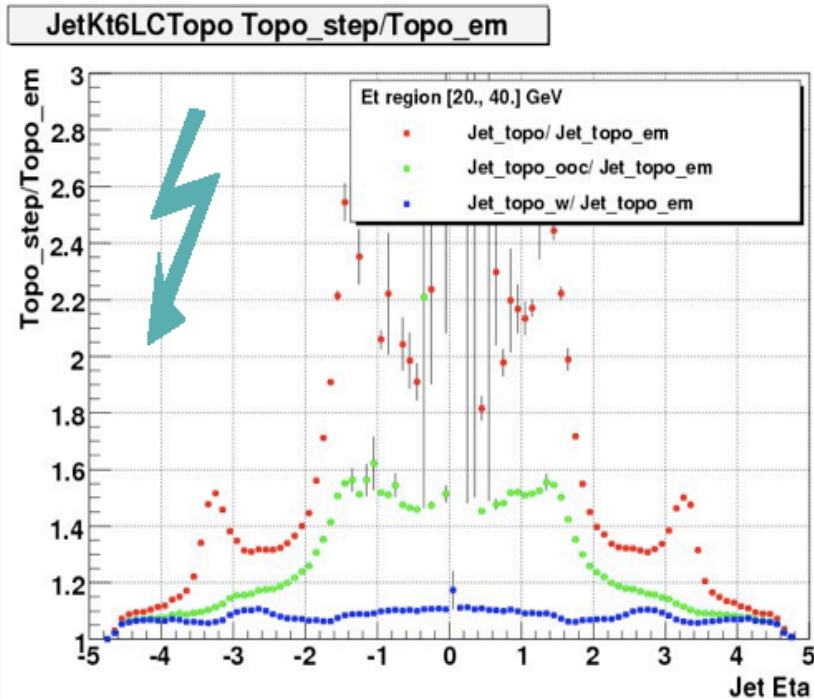

**VERY STRONG EVENT**  
**BY EVENT FLUCTUATION**

**<1/histo>**

**RELEASE 14.2.10 mc08 :: note difference in OOC corrections!!!!!!!**

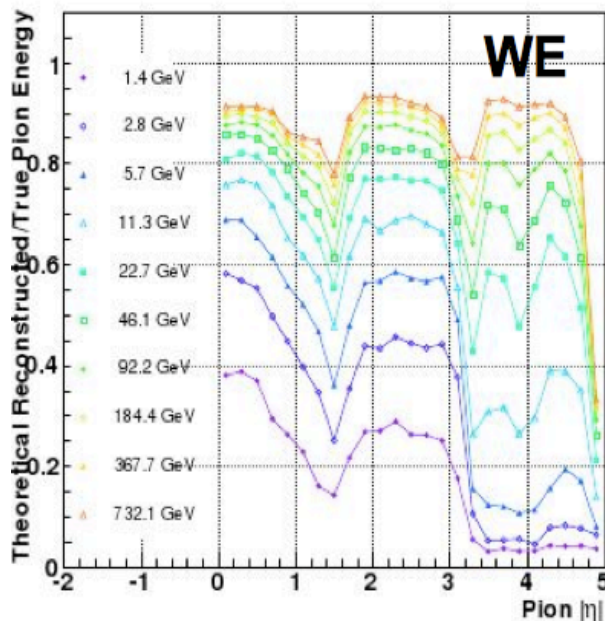

# Wiggles are welcome!!

these are MC truth plots for single pions

Munich group is working to produce  
Calibration hit connection to truth particle

reproduce the same  
type of studies in  
the jet environment

The energy deposited  
in the calorimeter (WE)  
and in dead material (DE)  
are complementary
