

# Hadronic calibration workshop 2009

## Friday, 26 June 2009

### Before collision data: Cosmic clean-up and cell masking (and Data Quality and monitoring issues) (09:30 - 11:00)

time	[id] title	presenter
09:30	[72] Material: Large Scale MET Cosmic Study	FATHOLAHZADEH, Baharak
09:30	[44] Material: A study of correlation between track based MET and Calo based MET using cosmic data	LIANG, Zhijun
09:30	[42] Material: Calorimetric Etmis with random and cosmic data	PETIT, Elisabeth
09:30	[119] Material: Jet/MET Data Quality Group	LESSARD, Jean-Raphael CONSONNI, Michele
09:30	[120] Material: Tower jets : multiplicity	Mr MAKOVEC, Nikola
09:30	[122] Material: CaloMonitoring Status and Plans	HADAVAND, Haleh
09:30	[123] Material: Commissioning of Jet/ETmiss with Cosmic Data & Their Clean-up	OKAWA, Hideki
09:30	[125] Material: Rejection of cosmics with real data	ZHU, Yingchun
09:30	[129] Material: Cosmics as a background to 'Stopped Gluinos'	JACKSON, Paul
09:30	[130] Material: Beam-Background Analysis in Jet/Etmiss Signatures	MEIROSE DA SILVA COSTA, Bernhard
	- [1] Background: From April 27 DP Taskforce	
	- [2] Background: From February 11 Jet/EtMiss Phone	
09:30	[141] Material: TileCal results with cosmics and first beams	VOLPI, Matteo
09:30	[146] Material: Using the quality factor to remove bad objects (update)	NIEDERCORN, Francois
09:31	[156] Comprehensive Session Slides: Before Collision Data	GIBSON, Adam
