SUSY III

Session | Location: Benedum Hall, G30

16:30–16:45 Lighting up Collider Searches for Electroweak States

Speaker
Ahmed Ismail

16:45–17:00 Edge Detecting New Physics the Voronoi Way

Speaker
Ms Dipsikha Debnath

17:00–17:15
Mass Reconstruction for High Multiplicity Final States Using the Boundary of Phase Space

Speaker
Matthew Klimek

17:15–17:30 Weighing the Gluino

Speaker
James Gainer

17:30–17:45 Superworld without supersymmetry

Speaker
Prof. Satyanarayan Nandi

17:45–18:00 Split Coupling SUSY

Speaker
Dr Yue Zhao

18:00–18:15 Micro-Split Supersymmetry

Speaker
Christopher Verhaaren

18:15–18:30 A supersymmetric two-field relaxion model

Speaker
Natsumi Nagata

18:30
