

# TWEPP 2016 - Topical Workshop on Electronics for Particle Physics

## Thursday 29 September 2016

**Radiation tolerant components and systems - Tulla Lecture Hall (Building 11.40) (14:50 - 16:05)**

-Conveners: Salvatore Danzeca

time	[id] title	presenter
14:50	[133] Application of flash-based field-programmable gate arrays in high energy experiments	SANO, Yuta
15:15	[137] Total Ionizing Dose effects on a 28nm Hi-K metal-gate CMOS technology up to 1 Grad	MATTIAZZO, Serena
15:40	[63] First studies on AMS H35 CMOS devices for application in the ATLAS tracker upgrade	CAVALLARO, Emanuele
