### Jets and QCD studies

Poster Session | Location: CERN, 61/1-201 - Pas perdue - Not a meeting room -

#### Neutral pion measurement in pp collisions at $\sqrt{s} = 7$ TeV with PHOS detector in ALICE

**Speaker**

Ms Pooja Pareek

#### LHCb measurements of J/psi and open charm cross-sections at 13 TeV

**Speakers**

Dominik Muller, Ilya Komarov

#### Inelastic proton cross-section at 13 TeV with ATLAS

**Speaker**

Miguel Ignacio Arratia Munoz

#### Elastic pp scattering at 8 TeV in the Coulomb-nuclear interference region measured by TOTEM

**Speaker**

Jiri Prochazka

#### Inclusive Jets at 13 TeV with the CMS detector

**Speaker**

Giannis Flouris
