

Session Program

2 March 2016

LHC students poster session

Top quark physics

CERN, 61/1-201 - Pas perdus - Not a meeting room -

Wednesday 2 March

17:04

Top quark physics

Poster Session | **Location:** CERN, 61/1-201 - Pas perdus - Not a meeting room -

Evidence for s-channel single top-quark production in proton-proton collisions at $\sqrt{s}=8$ TeV with the ATLAS detector

Speaker

Patrick Rieck

Jet flavor tagging and top x-section at LHCb

Speaker

Chitsanu Khurewathanakul

Underlying event measurement with $t\bar{t}$ bar + X events with pp collision data at 13 TeV with the CMS detector

Speaker

Bugra Bilin

$t\bar{t}$ bar reconstruction in lepton+jets channel in CMS

Speaker

Yi-Ting Duh

Measurement of the differential $t\bar{t}$ bar cross section for high-pt top quarks in $e(\mu)+$ jets events at 8 TeV with the CMS detector

Speaker

Susan J Dittmer

19:00
