

## Diphoton production at the LHC

*Friday, 9 September 2016 09:30 (30 minutes)*

We review selected theoretical results for diphoton production at the LHC concerning Standard Model studies and new physics searches, at the light of the recent 750 GeV excess.

### Summary

We review selected theoretical results for diphoton production at the LHC concerning Standard Model studies and new physics searches, at the light of the recent 750 GeV excess.
