

Zepeda

Professor Guido Altarelli played a crucial role in the uprising of particle physics in Mexico. Guido came to Mexico in the summer of 1969 and gave a one-month course on Group Theory at Cinvestav. On the basis of his daily lectures a book was written,

Title: Symmetry groups and current algebra : lectures

Author: Altarelli, Guido.

QC793.3 S9A5

Many graduate students have benefited from reading and following his book, which is used as textbook in the graduate courses on the subject at Cinvestav.

Mexico will keep a memory of honor for Professor Guido Altarelli.
