## Conference on New Frontiers in Physics

2017 Conference

August: Lectures, 27 August: Last Departure day

<https://indico.cern.ch/e/icnfp2016>

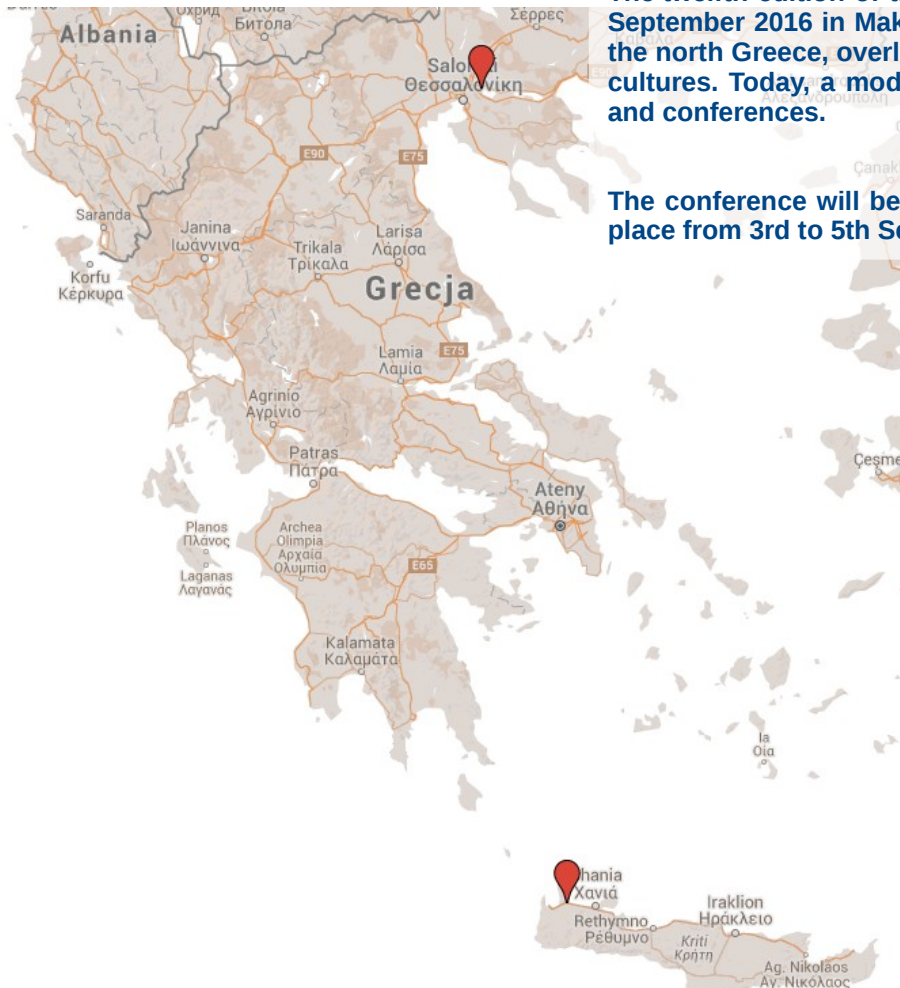

# XII Quark Confinement and the Hadron Spectrum

from 29 August 2016 to 3 September 2016  
Europe/Warsaw timezone

Inaugurated in 1994 in Como, Italy, this series of conferences has become an important forum for scientists working on strong interactions, stimulating exchanges among theorists and experimentalists as well as across related fields.

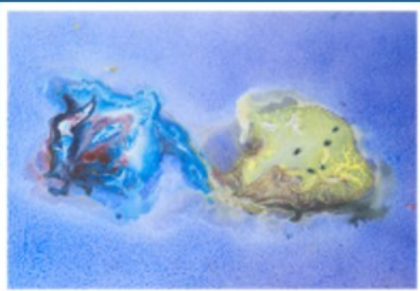

The twelfth edition of this conference series will take place in Thessaloniki (Greece) from 29th August to 3rd September 2016 in Makedonia Palace conference centre. Thessaloniki, founded more than 2500 years ago in the north Greece, overlooking the gulf of Thermaikos, has always been a meeting point for people of different cultures. Today, a modern city with marks of the past, is an inspiring place welcoming international events and conferences.

The conference will be followed by a Workshop on "Accelerators Revealing the QCD Secrets" that will take place from 3rd to 5th September 2016 in Makedonia Palace conference centre.
