

Opto Working Group Summary

- OptoWG
 - formed in 2005
 - <https://edms.cern.ch/nav/CERN-0000072984/CERN-0000073462>
 - Sub-Group a: Lessons learned and to be learned from LHC
 - Sub-Group b: Optical system irradiation guidelines
 - Sub-Group c: Optical link evaluation criteria and test procedures
 - Versatile Link project started in 2008 due to remain active until 2012.

- Is there still interest to operate as a WG?

Opto Working Group Summary

- There is interest to continue the WG
 - More lessons to be learned, and from more subdetectors than only trackers
 - VL will not be the only opto-project in the years to come
 - (what will happen after 2012?)
 - Need to have and maintain an open forum for discussing results and progress
- Will organize a mini-workshop based on invited contributions, with plenty of time for discussion
 - Possibly Feb-Mar 2010
 - Chaired by KK Gan and F Vasey
- Will continue meeting/reporting in TWEPP framework
