

TWEPP-09 Topical Workshop on Electronics for Particle Physics

Tuesday 22 September 2009

Parallel session B2a - Production, testing and reliability (15:00 - 16:15)

time	[id] title	presenter
15:00	[60] Replacing full custom DAQ test system by COTS DAQ components on example of ATLAS SCT readout	Mr DWUZNIK, Michal
15:25	[82] Integrated test environment for a part of the LHCb calorimeter	Mr ABELLAN BETETA, Carlos
15:50	[129] Picosecond time measurement using ultra fast analog memories.	Mr BRETON, Dominique
