Enabling Grids for E-sciencE

- **All quattor collaborative resources historically located at CERN:**
  - Mailing lists, CVS repository, Savannah bug-tracker

- **Main source repository now on SourceForge**
  - Migrated as snapshot (without history)
  - See http://quattor.svn.sourceforge.net/viewvc/quattor/
  - 22 developers registered so far
  - Build tools basically work

- **If you want to contribute please send me your SF username (create an account if you don't have one)**

- **Wiki now running on MediaWiki (http://quattor.org)**

- **File Release System used for pan and quatview:**
  - https://sourceforge.net/project/showfiles.php?group_id=221766

- **Issue tracker currently used only for pan:**
  - https://sourceforge.net/tracker/?group_id=221766

- **Mailing lists still hosted at CERN**

- **QWG code and documentation still hosted at LAL**
