

Session Program

9-11 Oct 2006

Flavour in the era of the LHC, 4th meeting

WG1, Monday afternoon

CERN

Monday 9 October

12:00

WG1, Monday afternoon

Session | Location: CERN, 60/6-002

14:00–14:05 **short introduction**

Speaker

conveners

14:05–14:25 **CMS discovery potential for SUSY topologies**

Speaker

Maria Spiropulu

14:30–14:45

Using the $e^{\pm} \mu^{\mp} + E_{T\text{miss}}$ signature in the search for supersymmetry and lepton flavour violation in neutralino decays

Speaker

Nikolai Krasnikov

14:55–15:15 **Neutralino spin measurement with ATLAS**

Speaker

Dr Andrea Ventura

16:00–16:30 **break**

16:30–18:00 **WG1, convener meeting**

18:00
