

# Quick look at the Flir IR camera

Jie Yu

Iowa State University

June 3, 2016

# Outline

- Camera returned!
- Data of 150 frames took in  $f=25\text{Hz}$  @  $T=-15^\circ\text{C}$ .
- Data .seq directly converted to .root using our tool  $\Rightarrow$  check if it still works.

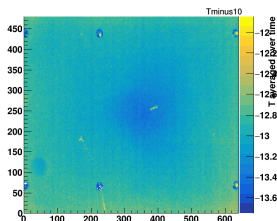

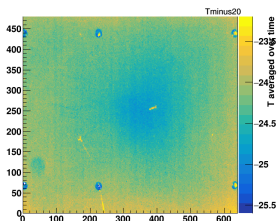

Figure: Before spot fix ( $T=-20\text{C}$  left,  $-10\text{C}$  right).

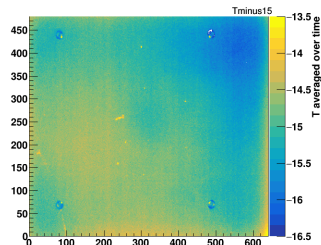

Figure: After spot fix ( $T=-15\text{C}$ ).
