

Session Program

22-27 Sept 2016

Hard Probe 2016

Parallel Session II: Hard Probes in $p+p$ and $p+A$ Collisions (II)

East Lake International Conference Center
Donghu Road 142, Wuchang District, Wuhan, Hubei, China

Saturday 24 September

10:40

Parallel Session II: Hard Probes in p+p and p+A Collisions (II)

Session | **Location:** East Lake International Convention Center, Shi-Yan Hall | **Convener:** Alexander Milov

10:40–11:00

Jet transverse fragmentation momentum from h-h correlations in pp and p-Pb collisions

Speaker

Jussi Viinikainen

11:00–11:20

Jet and Leading Hadron Production in d+Au Collisions in the PHENIX Experiment

Speaker

Takao Sakaguchi

11:20–11:40

Single inclusive forward hadron production at next-to-leading order

Speaker

Yan Zhu

11:40–12:00

Including resummation in the NLO BK equation

Speaker

Tuomas Lappi

12:00–12:20

Forward J/ψ and D-meson production in pA collisions at the LHC

Speaker

Bertrand Ducloue

12:20
