Saturday 24 September

10:40

Parallel Session II: EM Probes (II)

Session | **Location:** East Lake International Convention Center, Jing-Zhou Hall | **Convener:** Lijuan Ruan

10:40–11:00 **Viscous corrections to photon production channels in QGP**

Speaker

Sigtryggur Hauksson

11:00–11:20 **Non-thermal photons in the quark-gluon plasma induced from jets**

Speaker

Moritz Greif

11:20–11:40

Holographic photon production and flow in strongly coupled quark gluon plasmas

Speaker

Di-Lun Yang

11:40–12:00

Low mass dielectron measurements in pp, p--Pb and Pb--Pb collisions with ALICE at the LHC

Speaker

Taku Gunji

12:00–12:20

Low-mass electron pairs from Au+Au collisions at 1.23A GeV with HADES

Speaker

Patrick Sellheim

12:20
