

Hard Probe 2016

Saturday 24 September 2016

Parallel Session III: Jet MC and Jet Modification in A+A - Xiang-Yang Hall (14:00-15:40)

-Conveners: Joern Putschke

time	[id] title	presenter
14:00	[69] Angular Structure of Jet Quenching within a Hybrid Strong/Weak Coupling Model	PABLOS ALFONSO, Daniel
14:20	[162] Advanced jet modification observables explored with Monte Carlo models	LAPIDUS, Kirill
14:40	[12] Reconstructed jets in a multiphase transport model	MA, Guo-Liang
15:00	[42] Medium recoil in JEWEL	KUNNAWALKAM ELAYAVALLI, Raghav
15:20	[89] Baryon to meson ratio in jets and underlying event in Pb–Pb, p–Pb and pp collisions with ALICE detectors	ZHANG, Yonghong
