

Session Program

22-27 Sept 2016

Hard Probe 2016

Parallel Session V: Jet Modification in A+A (III)

East Lake International Conference Center
Donghu Road 142, Wuchang District, Wuhan, Hubei, China

Sunday 25 September

08:30

Parallel Session V: Jet Modification in A+A (III)

Session |

Location: East Lake International Conference Center, Xiang-Yang Hall, Donghu Road 142, Wuchang District, Wuhan, Hubei, China |

Convener: Yaxian Mao

08:30–08:50

Coherence and resolution in jet formation inside a dense medium

Speaker

Fabio Dominguez

08:50–09:10

Transport coefficients from energy loss studies in an expanding QGP

Speaker

Alejandro Ayala

09:10–09:30

Time Dependent qhat from AdS/CFT

Speaker

William Horowitz

09:30–09:50

Jet studies in heavy ion collisions with the ATLAS detector

Speaker

Radim Slovak

09:50–10:10

Azimuthal anisotropy of very high- p_T particles in PbPb collisions at 5.02 TeV with CMS

Speaker

Quan Wang

10:10
