

Cloud Modelling Languages

Question: Who likes...

- the commandline?
- installing software?
- changing config files?
- debugging networking problems?
- debugging software dependency problems

* 10

* 100

* 1000

It doesn't scale...

So, we automate it!

So, we automate it!

Programming languages
made by sysadmins

Programming languages made by sysadmins

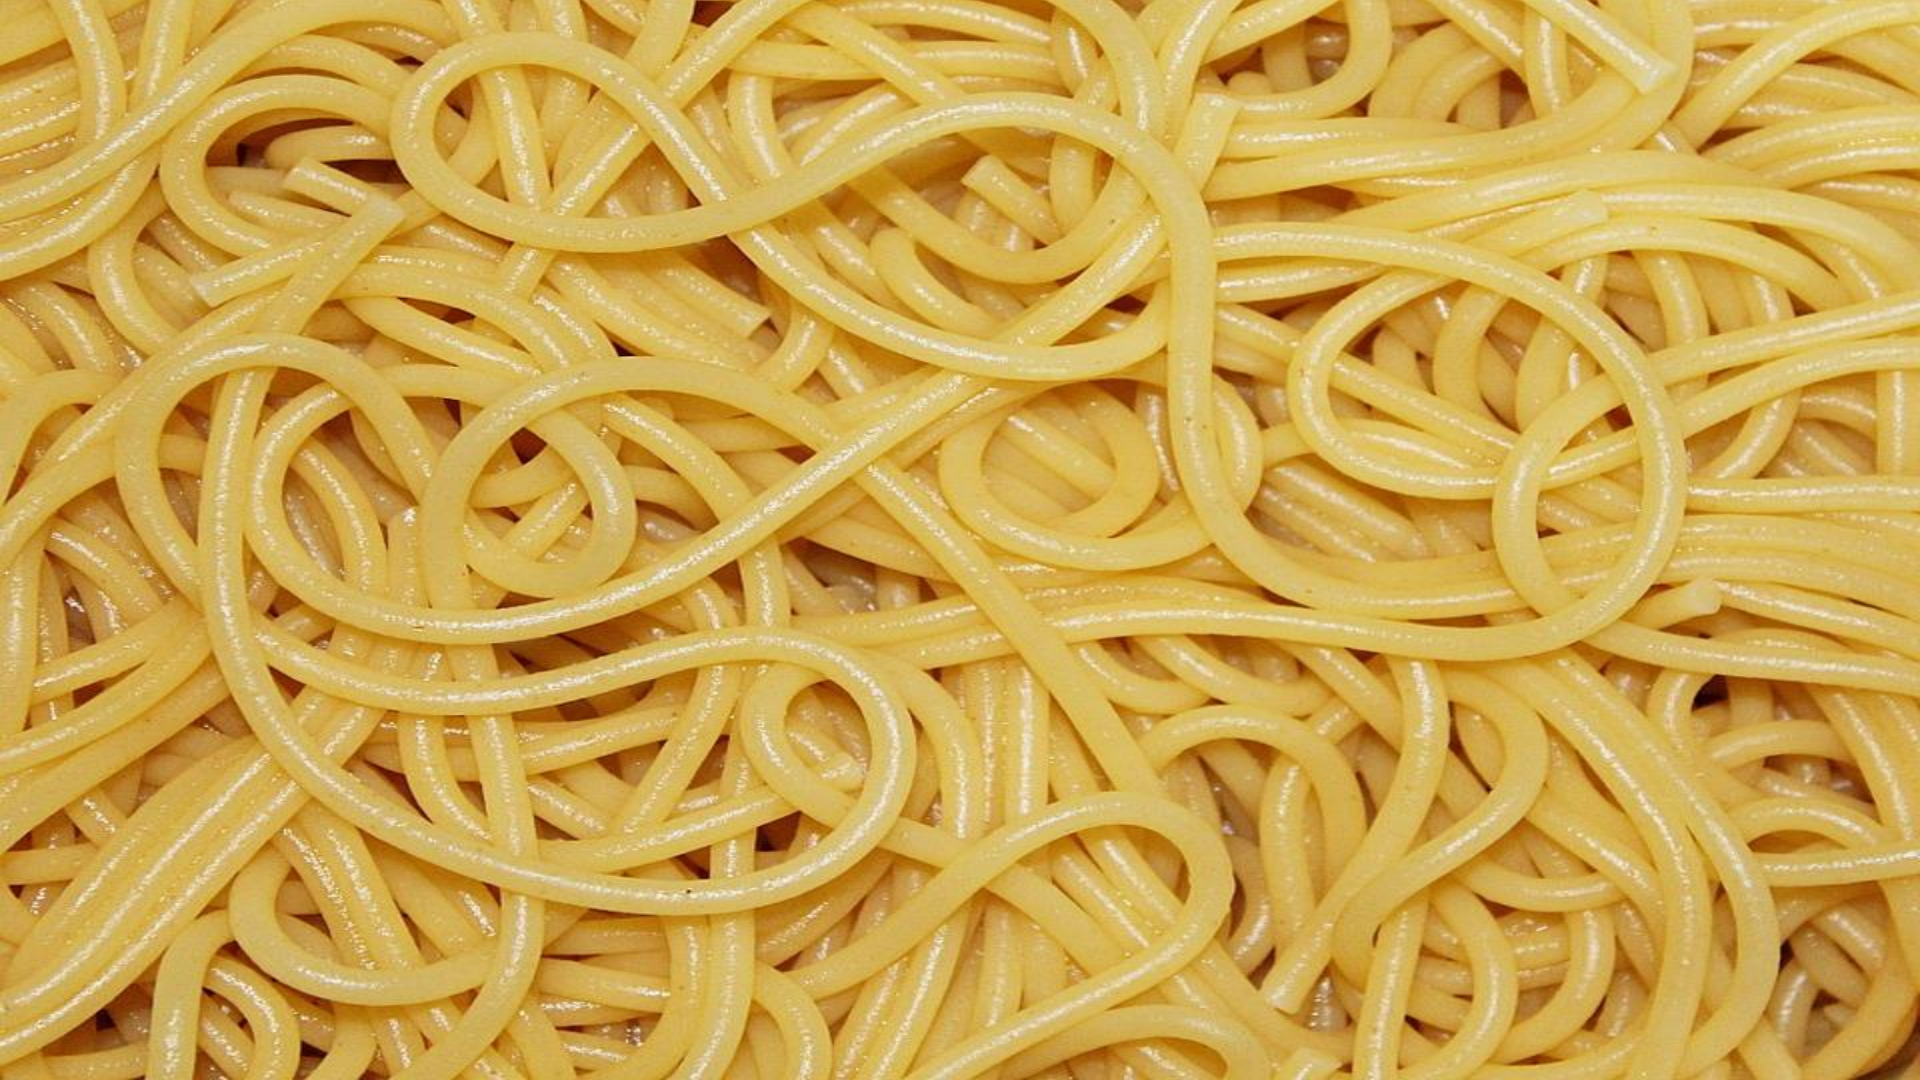

Yes, it's as bad as it sounds!

Dependency isolation?

Encapsulation?

Interfaces?

Multiple Scopes?

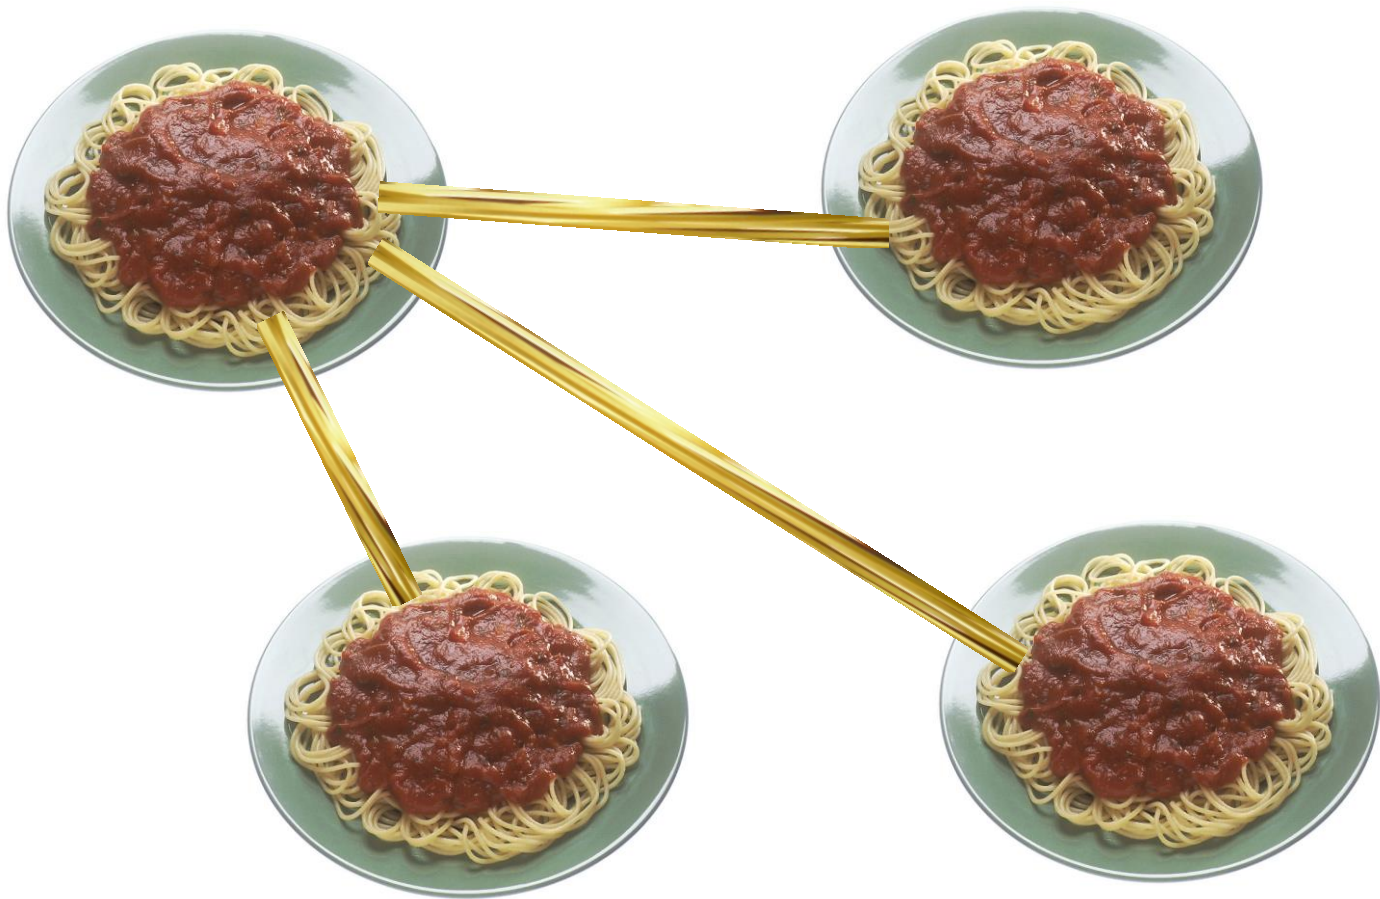

Complex
Inflexible
Expensive

Cloud modelling to the rescue!

Whut?
Demo Time!

Ubuntu Juju

Let's build it!

OASIS TOSCA

Let's standardize it!

Let's work together?

Thanks!
