

Cloud Modelling Languages

Question: Who likes...

- the commandline?
- installing software?
- changing config files?
- debugging networking problems?
- debugging software dependency problems

* 10

* 100

* 1000

It doesn't scale...

So, we automate it!

So, we automate it!

Programming languages
made by sysadmins

Programming languages made by sysadmins

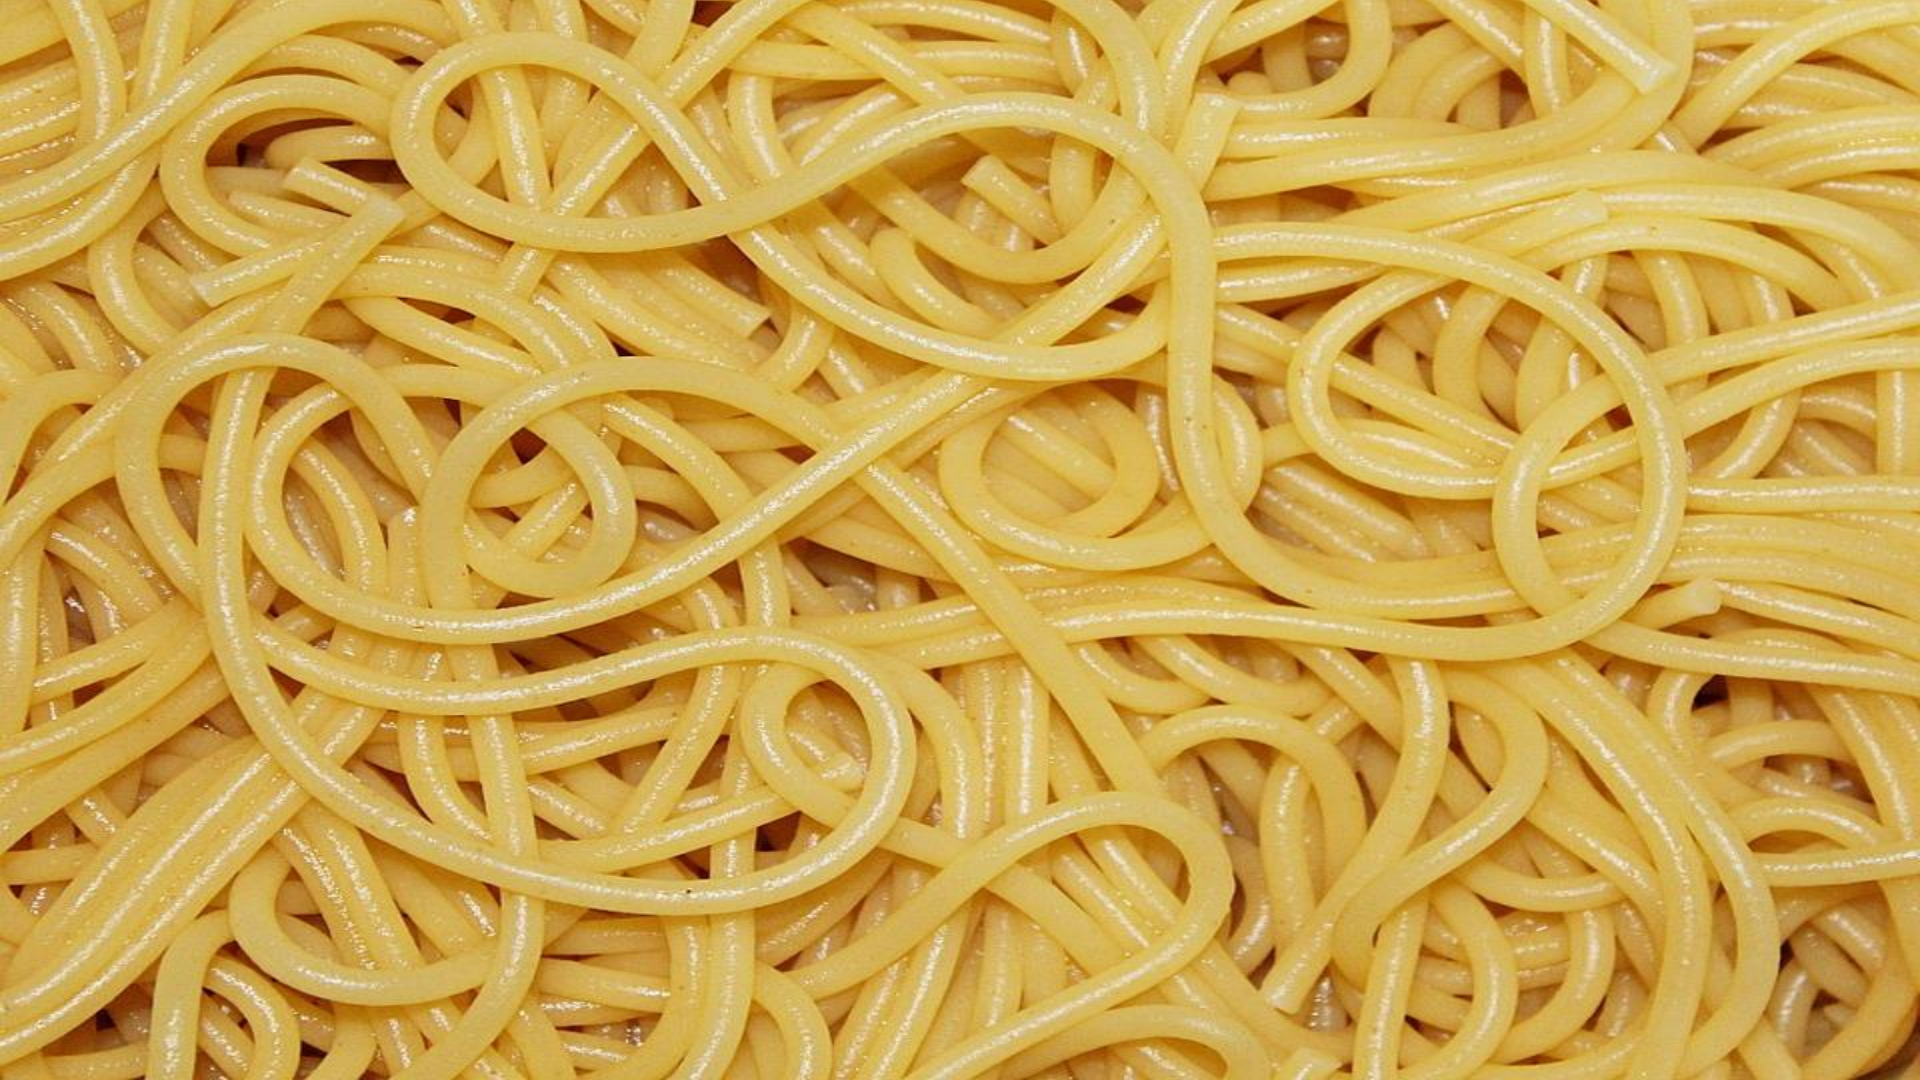

Yes, it's as bad as it sounds!

Dependency isolation?

Encapsulation?

Interfaces?

Multiple Scopes?

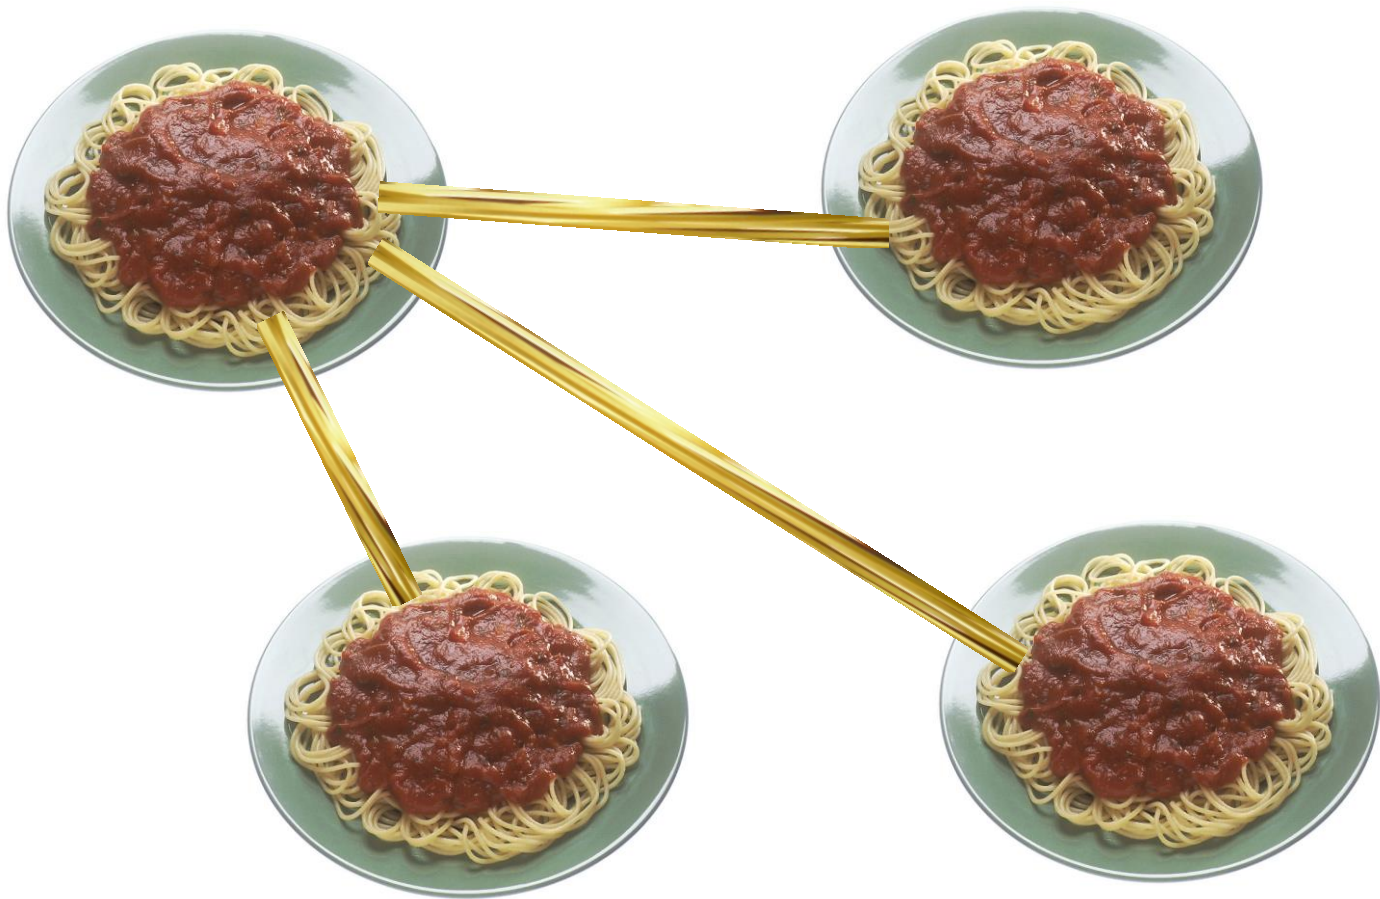

Complex
Inflexible
Expensive

Cloud modelling to the rescue!

A close-up photograph of a snow leopard cub lying on the ground. The cub's mouth is wide open, revealing its sharp, white canine teeth. Its eyes are yellow and wide, looking towards the camera. The cub's fur is thick and mottled with grey, black, and white. The background is a blurred, rocky or sandy terrain.

Whut?
Demo Time!

Ubuntu Juju

Let's build it!

OASIS TOSCA

Let's standardize it!

Let's work together?

Thanks!
