

UHECR2016

Kyoto Research Park, Oct. 11-14, 2016

Preface

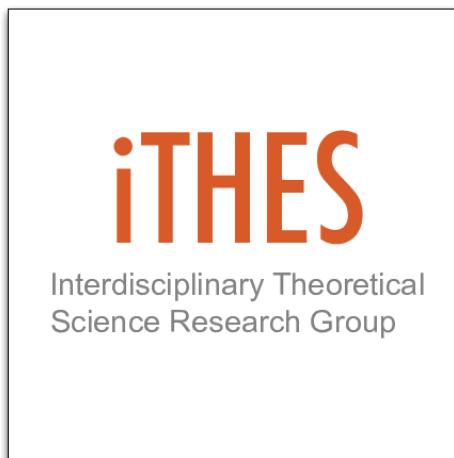

Observational studies of UHECRs achieved remarkable progress in the last decade. The upgrade of the Pierre Auger Observatory (AugerPrime) and the extension of the Telescope Array (TAX4) are ongoing to elucidate the origin and nature of cosmic rays at the highest energies. UHECR 2016 is the fourth conference in a series that started in Nagoya (2010), and continued at CERN (2012) and Springdale in Utah (2014). The symposium will focus on the highest energy cosmic rays as well as cosmic rays at lower energies above 1 PeV, and multi-messenger approaches, including

- ⌚ Recent results from UHECR observations and upgrade / extension plans
- ⌚ Reports of the Working Groups on energy spectrum, composition, anisotropy, hadron interaction models and multi-messenger
- ⌚ Next-generation observatories from space and ground

UHECR2016 will be held at the Kyoto Research Park (KRP, <http://www.krp.co.jp/english/>). Room 1 on the second floor of the Western Zone Building #4 is the main venue, and screen view in Room 2 on the same floor is also available. The conference dinner is at the Atrium (Building #1) of KRP on Oct 12. Enjoy Japanese food, wine, whiskey, and also a traditional *Kyoto Maiko*'s performance.

Kobayashi-Maskawa Institute
for the Origin of Particles and the Universe

* The sizes of the logos are not exactly scaled by the amount of grant provided.

International Advisory Committee

S.W. Barwick,
V.S. Berezinsky,
P. Blasi,
T. Ebisuzaki,
R. Engel,
P.L. Ghia,
F.L. Halzen,
Y. Itow,
K.-H.Kampert (Chair),
P. Lipari,
K. Makishima,
S. Ogio,
A.V. Olinto,
M.I. Panasyuk,
I.H. Park,
P. Picozza,
P. Privitera,
D. Ryu,
H. Sagawa,
P. Sokolsky,
R. Yamazaki

Local Organizing Committee

Y. Kawasaki,
K. Kawata,
S. Nagataki,
T. Nonaka,
S. Ogio (Secretary),
H. Sagawa (Chair),
T. Sako,
M. Takeda,
Y. Tsunesada,
S. Udo,
T. Yamamoto

Access to the KRP

http://www.krp.co.jp/english/access_to_krp/

From Kansai International Airport to Kyoto City

- MK Skygate shuttle (3,600 JPY)

This service takes you directly to your destination. A Shuttle reservation is required 2 days before your arrival date.

The Meeting point (MK counter) is located next to Gate H of the airport South Exit. Traveling time is about 120 minutes.

For more information: <http://www.mktaxi-japan.com/>

- Kansai Airport Limited Express HARUKA, by Japan Railway (JR) (2,850 JPY for non-reservation seat)

Traveling time to Kyoto Station is 75 minutes. The tickets can be purchased at the station office. For more information:

- Limousine Bus, by KATE (Kansai Airport Transportation Enterprise) (2,550 JPY)

This bus leaves every 30-40 minutes. Traveling time to JR Kyoto Station is about 85 minutes. The tickets can be purchased from vending machines located near the bus stops.

From JR Kyoto Station to KRP

- Taxi

10 minutes (Approx. 1,000 JPY)

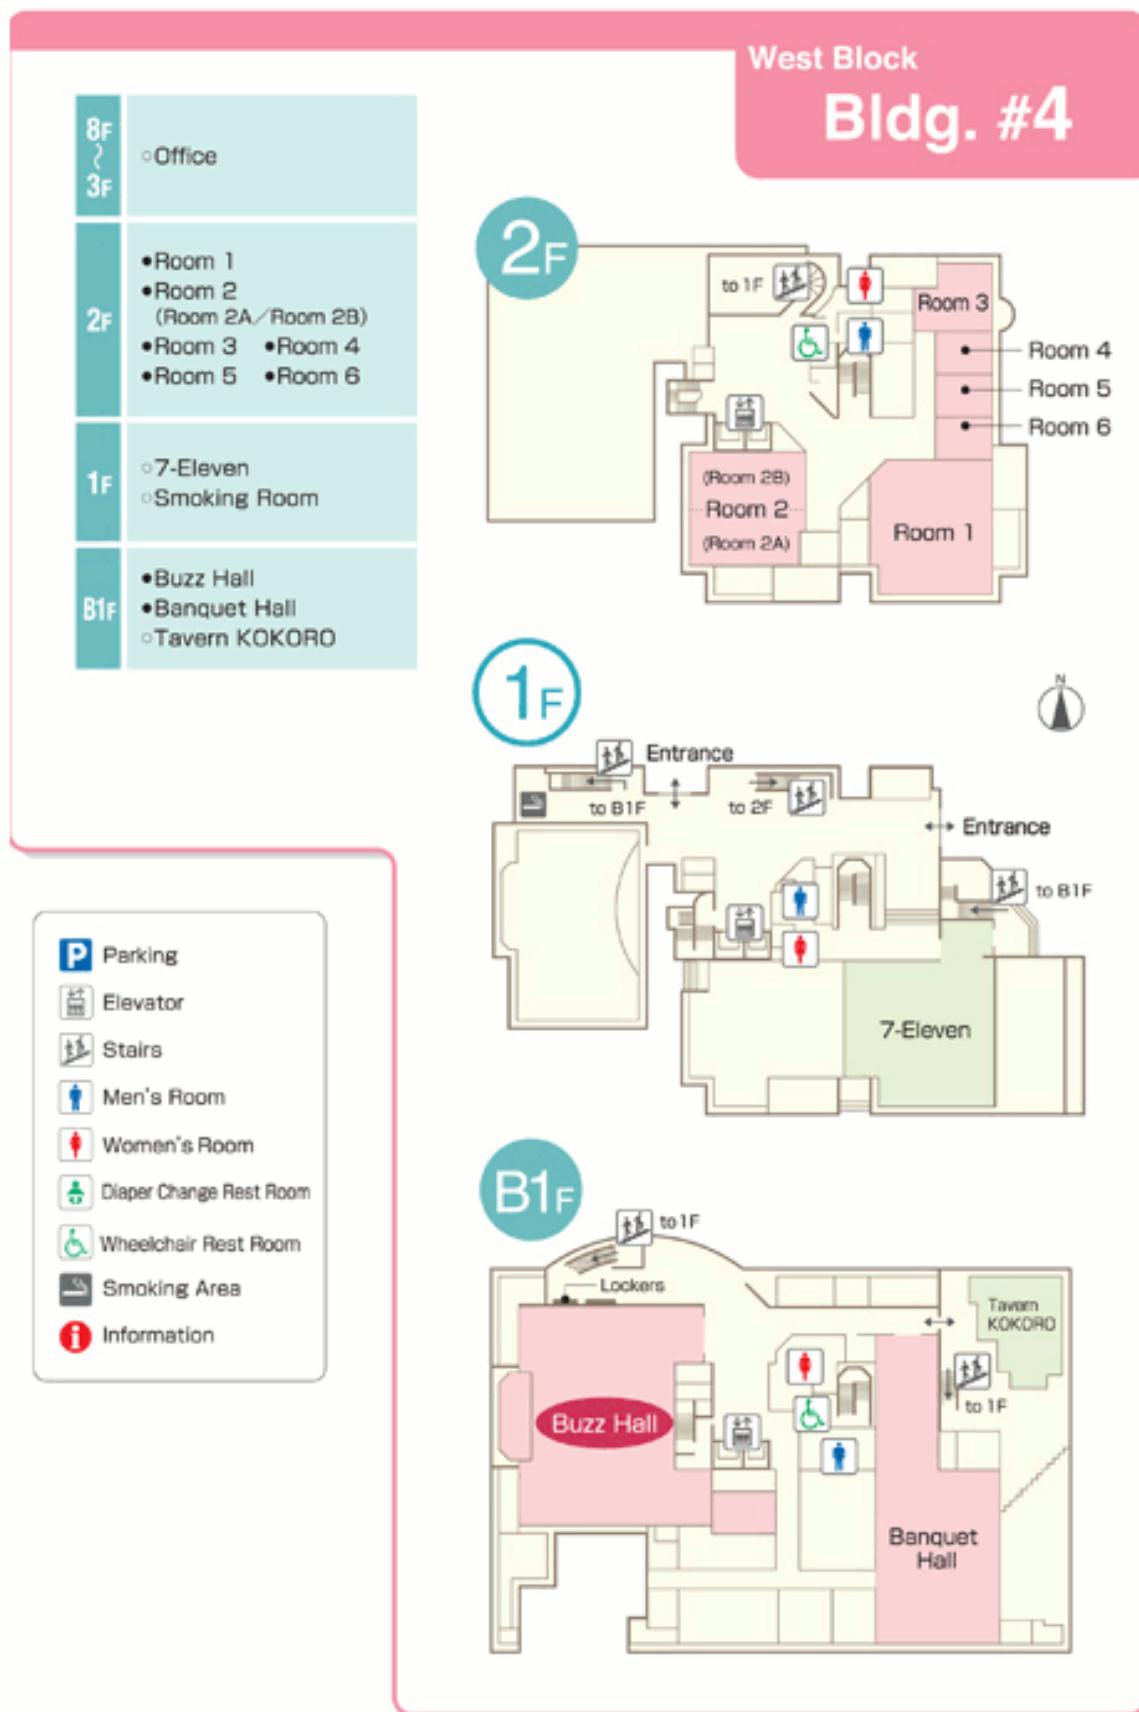

- JR *San-in* or *Sagano* line (Local)

Please get off at the first stop, Tambaguchi Station (4 minutes, 140 JPY). 4 minutes to walk from the station to Kyoto Research Park.

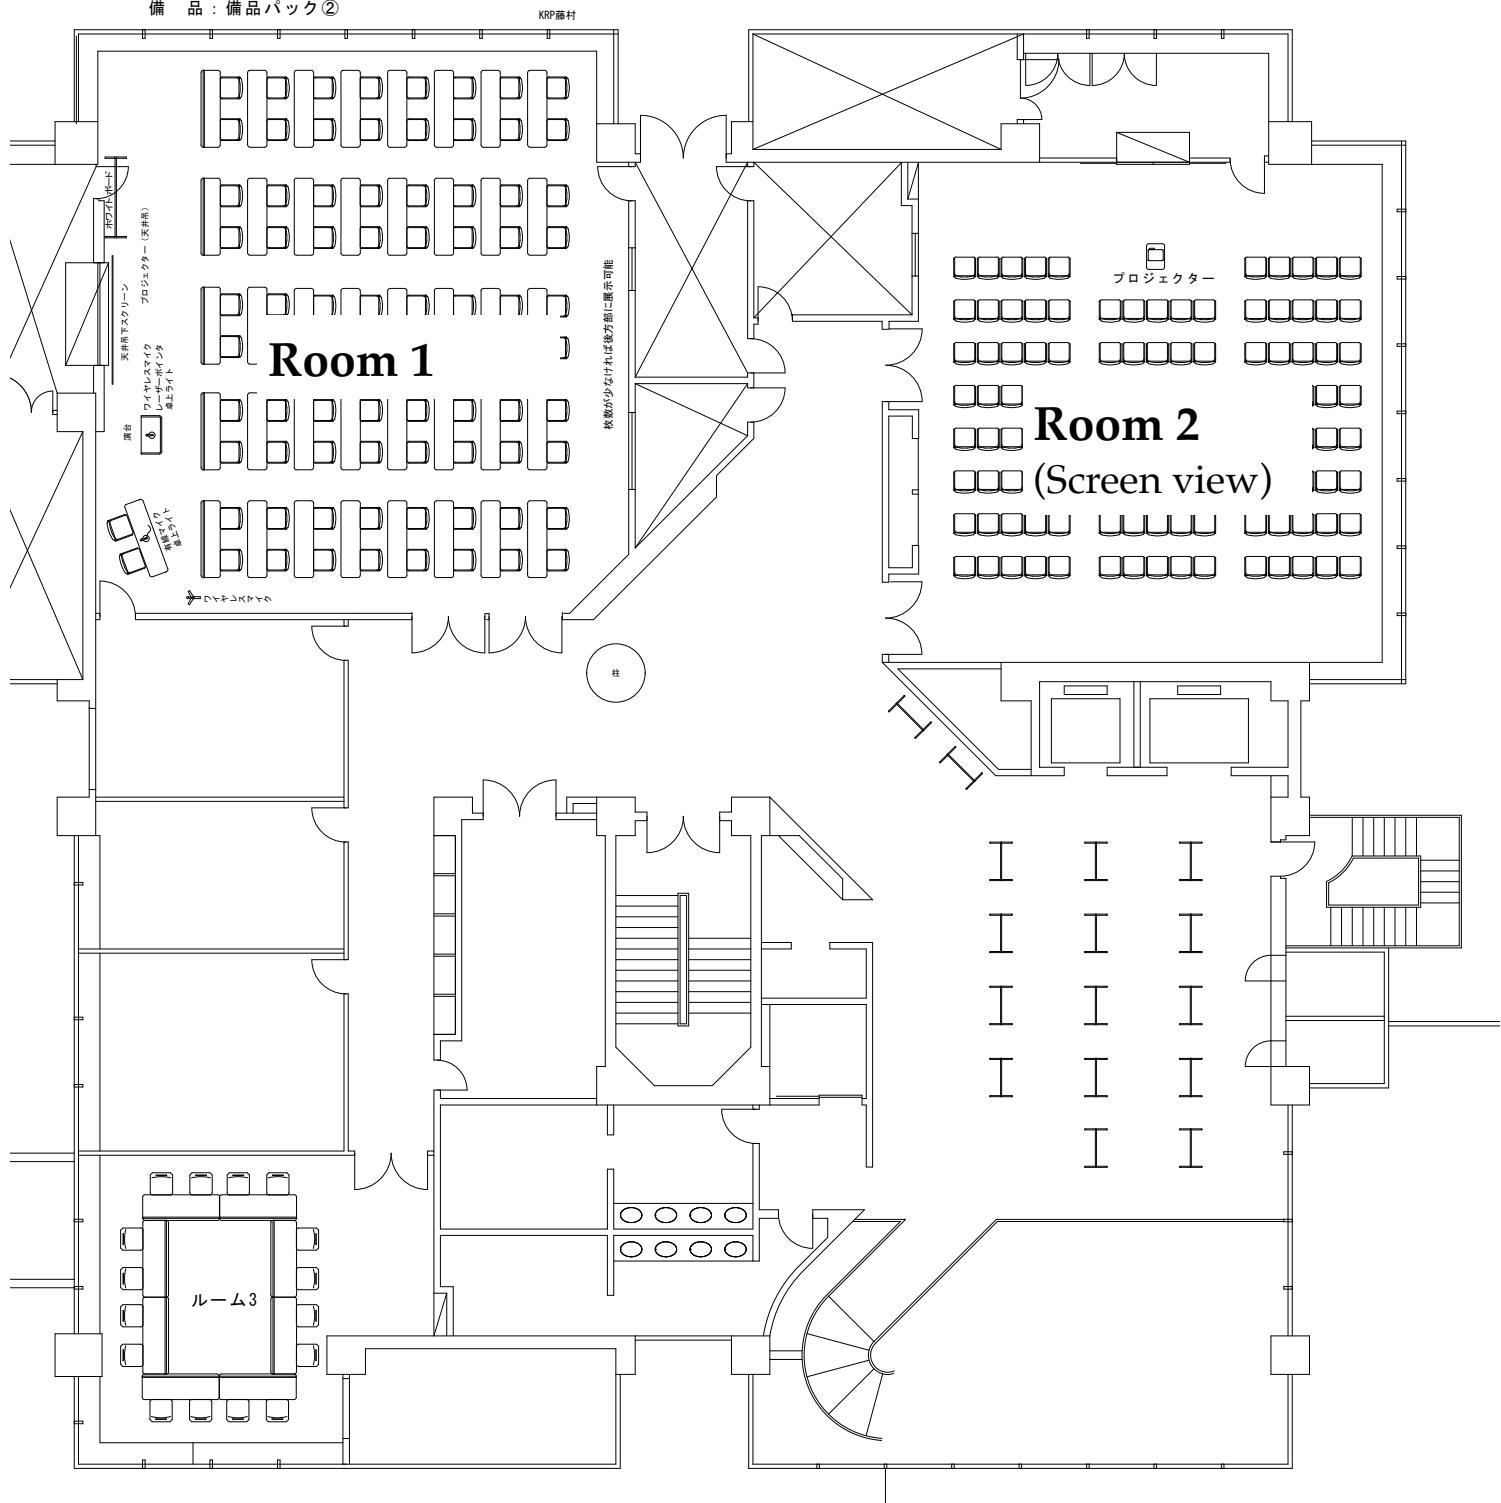

Venue

Room 1 and 2, Building #4 in the Western Zone of the KRP

主催者：最高エネルギー宇宙線国際会議2016 (UHECR2016)
部屋前表示：最高エネルギー宇宙線国際会議2016 (UHECR2016)
日 程：2016年10月10日～14日 9時～18時
会 場：ルーム1（西地区4号館2階）
設 営：スクール80席
備 品：備品パック②

会 場：ルーム2（西地区4号館2階）
設 営：シアター115席

Information

- Venue: Room 1 and Room 2, the 2nd floor of the W4 Building
 - The presentations are given at the Room 1, and screen-viewed in the Room 2.
- Poster sessions: During the coffee breaks, in the Room 2.
 - Posters are exhibited all the days in the conference, no changes.
- Rooms are available in
 - Oct 10: 15:00 - 19:00 (Registration and *Welcome Cocktail*)
 - Oct 11 and 14: 08:00 - 20:00
 - Oct 12:
 - Room 1 : 08:00 - 18:00
 - Room 2 : 08:00 - 17:00
 - Oct 13: 08:00 - 13:00
- Registration: 2nd floor of the W4 building, from 13:00 Oct 10. Enjoy also *Welcome Cocktail*.
- Welcome cocktail: 2nd floor of the W4 building, 15:00 - 19:00, Oct 10
 - Wine and snacks served.
- Conference dinner: 18:00 - 20:00 On Oct 12, at *Atrium* (Building #1) of the KRP.
 - Enjoy traditional Kyoto *Maikos'* performance.
- No session in the afternoon Oct 13.
 - Rooms are not available after 13:00.
- Internet access: Wi-Fi available. Instruction will be given at the conference.
- Lunch: Not served from the conference organizer. The KRP restaurant in the Building #1 is available, and there are several restaurants in the vicinity of the KRP.

UHECR2016 (Kyoto) Time table for Oral Presentations (ver. 2016.09.30)

10.Oct (Mon)	11.Oct (Tue)	12.Oct (Wed)	13.Oct (Thu)	14.Oct (Fri)
	8:30 Registration (if not yet)	8:30 Measurements of the mass composition of UHECRs with the Pierre Auger Observatory Matthias Plum (abstractID=70)	8:30 Constraints on UHECR sources from IceCube Aya Ishihara (abstractID=56)	8:30
	9:00 Opening	9:00 Multi-messengers from transient candidates of UHECRs Kumiko Kotera (abstractID=62)	9:00 Auger Prime	9:00
	9:10 TA Spectrum Summary	9:25 Composition Measurements via Depth of Airshower Maximum at the Telescope Array John Belz (abstractID=55)	9:25 (TBA)	9:25 (TBA)
	9:30 Dmitri Ivanov (abstractID=59)	9:45 Auger-TA composition working group report	9:40 UHECR and cosmogenic neutrinos	9:45 The TA x 4 Experiment
	Measurement of the energy spectrum of cosmic rays with the Pierre Auger Observatory Ines Valino (abstractID=39)	10:05 Hadronic interaction studies at the Pierre Auger Observatory (TBA)	10:20 Venya Berezinsky (abstractID=66)	9:45 Eiji Kido (abstractID=19)
	Auger-TA energy spectrum working group report	10:25 Darko Veberic (abstractID=64)	10:25 The status of the TAIGA project	Telescope Array Low energy Extension: TALE
	10:15 (abstractID=37)	10:45 Cofee Break	10:50 Leonid Tkachev (abstractID=44)	10:05 Shoichi Ogio (abstractID=26)
	10:45 Cofee Break	10:55 Cofee Break	10:50 Cofee Break	10:45 Cofee Break
	The sFLASH experiment: Measuring air fluorescence from Laboratory EAS at SLAC. Pierre Sokolsky (abstractID=45)	11:15 <Xmax> Uncertainty from Extrapolation of Cosmic Ray Air Shower Parameters. Gordon Thomson (abstractID=33)	11:10 Stefan Coenders (abstractID=69)	10:55 IceCube-Gen2: The next generation neutrino observatory in Antarctica
	Energy spectrum and composition constraints on the transition from Galactic to extragalactic cosmic rays Etienne Parizot (abstractID=48)	Review of accelerator experiments relevant to air shower development Takashi Sako (abstractID=71)	11:15 LU Lu (abstractID=63)	11:15 The JEM-EUSO Program to study UHECRs from Space
	Can ultrahigh energy protons come from steady astrophysical sources? Ke Fang (abstractID=6)	12:10 The resent results from the LHCf experiment Hiroaki Menjo (abstractID=24)	11:30 Marco Casolino (abstractID=5)	11:40 The first results of the TUS orbital detector of ultra high energy cosmic rays and transient events in the
	Particle acceleration to ultra-high rigidities Martin Lemoine (abstractID=75)	Review of model predictions for extensive air showers Tanguy Pierog (abstractID=74)	11:40 Alexander Kusenko (abstractID=73)	12:00 Mikhail Zotov (abstractID=12)
	Memorial Address (for Prof. James Watson Cronin) (for Prof. Motohiko Nagano)	12:35 Hiroaki Menjo (abstractID=24)	Constraining UHECR models with cosmogenic photon and neutrino predictions Arien, Van Vliet (abstractID=10)	Prospects of silicon photomultipliers for ground-based cosmic ray experiments
	12:35 Lunch	12:35 Tanguy Pierog (abstractID=74)	12:15 John Belz (abstractID=54)	12:20 Christine Peters (abstractID=13)
	14:20 Cosmic Rays Energy Spectrum observed by the TALE detector Tareq Abuzyayad (abstractID=31)	14:25 Search for Anisotropies in the measured Arrival Directions of Ultra-High Energy Cosmic Rays at the Pierre Auger Observatory Markus Lauscher (abstractID=65)	12:40 Auger multidisciplinary subjects (TBA)	14:20 Lunch
	14:40 Cosmic ray physics with the KASCADE-Grande observatory	14:45 TA anisotropy summary Peter Tinyakov (abstractID=29)	14:20 Progress in Development of High Energy Neutrino Detectors in Antarctica using Coherent Radio Techniques	14:45 Steven Barwick (abstractID=40)
	15:00 ARTEAGA-VELAZQUEZ (abstractID=57)	15:05 Arrival Directions at Ultra-High Energies: A Review Armando DI MATTEO (abstractID=36)	14:45 Radio detection of cosmic rays – achievements and future potential	
	15:00 Results of CR energy spectrum and mass composition study with EAS Arrays in the Tunka Valley Vasily Prosin (abstractID=43)	15:25 Poster Session /Coffee	15:15 Tim Huege (abstractID=42)	
	15:20 Estimation of the invisible energy with the data collected by the Pierre Auger Observatory Analisa Gabriela Mariazzi (abstractID=9)	15:55 UHECR anisotropies and the Large-Scale matter distribution Peter Tinyakov (abstractID=35)	15:45 Poster Session /Coffee	
	15:40 Poster Session /Coffee	16:20 Monte Carlo Bayesian search for the plausible source of the Telescope Array hotspot Hao-ning He (abstractID=4)	15:45 Summary and discussion	
	16:10 Summary of low energy ($E < 1$ EeV) spectrum and composition Andrea Chavassa (abstractID=72)	16:40 A Close Correlation of TA Hotspot Events with Filaments of Galaxies Connected to the Virgo Cluster RYU Dongsu (abstractID=17)	17:00	
	16:35 (Galactic acceleration and transport) (TBA)	17:00 Influence of the galactic magnetic field on the trajectory of ultra-high energy cosmic rays Jihyun Kim (abstractID=18)		
	17:00 (TBA)	17:20 Nonlinear Diffusive Shock Acceleration in GRB Afterglows Don Warren (abstractID=52)		
	17:25 The physics of ultra-high energy cosmic rays: spectra, composition and the transition between galactic and extra-galactic cosmic rays. Roberto Aloisio (abstractID=67)	17:40		
	17:45 Anisotropy Search in Energy Distribution in the Northern Hemisphere Using the Telescope Array Toshiyuki Nonaka (abstractID=34)	17:50		
	Lightest Nuclei UHECR from nearby galactic and nearest AGN sources Daniele Fargion (abstractID=46)	Banquet (at B1F Banquet hall)
