

# 2016 International Conference on Ultra-High Energy Cosmic Rays

## Thursday, 13 October 2016

### Oct.13AM2 (10:50 - 12:40)

-Conveners: Etienne Parizot

time	[id] title	presenter
10:50	[69] A novel study connecting UHECRs, neutrinos, and gamma-rays with the objective to identify common counterparts of the three astrophysical messenger	COENDERS, Stefan
11:10	[73] Multi-messenger signals from UHECR propagation	KUSENKO, Alexander
11:30	[10] Extra-galactic sources and propagation including constraints on Extragalactic magnetic fields	Dr VAN VLIET, Arjen
11:50	[54] High-Energy Particle Showers Observed at Ground Level in Coincidence With Downward Lightning Leaders at the Telescope Array Observatory	BELZ, John
12:15	[80] Elves, Forbush decreases and solar activity studies at the Pierre Auger Observatory	Dr COLALILLO, Roberta
