

Event display in ATLAS

Riccardo Maria Bianchi (*Pittsburgh*)
on behalf of the ATLAS Collaboration

CHEP 2016, San Francisco, 10-14 October 2016

Part I - **History and usage** (short video presentation: ~2 min)

A brief history of event display software in HEP experiments and its usage

Part II - **Current technology and future trends** (oral talk with slides: ~10 min)

Presentation of the event display software tools used in ATLAS, with a focus on the two most used tools: Atlantis and VP1.
