CHEP 2016 Closing

Richard P Mount
SLAC National Accelerator Laboratory

October 10, 2016
Proceedings Submission Deadline

Monday February 6, 2017
Thanks to the CHEP 2016 Sponsors

- Dell
- Intel
- Cisco
- HP
- Everspan
- Sony
- Hitachi Data Systems Federal
- Supermicro
- Pacific Northwest National Laboratory
- Yandex Data Factory
- Ciena
- Scalar
- NVIDIA
- NSF
- U.S. Department of Energy
- Office of Science
Thanks to:

- SLAC and LBNL
- The CERN Indico team
- The Local Organizing Committee
- The International Advisory Committee
- The Program Committee Chairs
- The Track Conveners and Session Chairs
- Everyone who will be involved in creating the Proceedings
Thanks to:

• Stanford Conferences
• The Student Scholarship holders
• The hotel staff (A/V, networking, …)
• Microsoft for loan of the presentation laptops
Thanks to:

• All presenters, but especially

• Plenary speakers and panelists from outside HEP and NP who donated their time and energy to our conference
Highlights and Lowlights: Visas

• Thanks to the 48 respondents to the poll

• Mean days to obtain a US visa
  • 38 (variance 14) for China, Russia, …
  • 9 (variance 9) for Europe

• Success or failure
  • 9 (at least) visas not received in time (China, Russia, … only)
  • These applications were submitted ~34 days before October 9.

• Caveats
  • Only polled those who registered for CHEP 2016
  • Some responses included the time for internal institute processing
Highlights and Lowlights: Network and Wireless

- It worked! I was surprised!

- Why?
  - 3 Gbps + 0.5 Gbps bandwidth to the hotel,
  - up to 1.5 Gbps available to CHEP 2016
  - Serious wireless networking provided by the hotel – equipment from Ruckus Wireless

- Statistics:
  - Over 1000 different devices
  - Over 250 Mbps sustained downloads
See you in Sofia
