

Towards a next space probe for CMB observations and cosmic origins exploration

Tuesday 17 May 2016

Space missions proposals: Space missions proposals - 222/R-001 (17:30 - 19:10)

time	[id] title	presenter
17:30	[22] Progress with LiteBIRD (20'+10')	HAZUMI, Masashi
18:00	[23] Remotely by phone : CMB polarization with PIXIE (20'+10')	Dr KOGUT, Alan
18:30	[49] Round table: moderated by Marco Bersanelli and François Bouchet - What next? science objectives and required observations: Objective: Open discussion of what are the strengths and weaknesses of possible future experiments, complementarity, what is our target science for the M5 proposal and what is the best strategy to get it	BERSANELLI, Marco
