

**Session Program**

**12-17 Sept 2016**

**Hot Quarks 2016**

***Wednesday morning***

# Wednesday 14 September

08:30

## Wednesday morning

Session | Location: | Convener: Jean-Francois Paquet

08:30–09:05 **Heavy flavor overview**

**Speaker**

Alessandro Grelli

09:05–09:25

**HEAVY QUARK DYNAMICS IN THE QGP WITHIN A BOLTZMANN TRANSPORT MODEL:  
Radiative vs Collisional Energy Loss**

**Speaker**

Mr Gabriele Coci

09:25–09:45

**Open-charm meson measurements in pp and Pb-Pb collisions at central rapidity  
with ALICE**

**Speaker**

Julien Charles Hamon

09:45–10:15 **Coffee break**

10:15–10:35

**Separation of the charm and beauty production in p--Pb and Pb--Pb collisions with  
ALICE**

**Speaker**

Martin Andreas Volk

10:35–10:55 **Upsilon production at the STAR experiment**

**Speaker**

Robert Vertesi

10:55–11:15  **$\chi/\psi$  production in p+p and Au+Au collisions at STAR experiment**

**Speakers**

Mr Qian Yang, Qian Yang

11:15–12:00 **Discussion session**

12:00
