

Hot Quarks 2016

Thursday, 15 September 2016

Thursday morning (08:30 - 12:00)

-Conveners: Prithwish Tribedy

time	[id] title	presenter
08:30	[79] Overview on electromagnetic probes studies	PAQUET, Jean-Francois
09:05	[52] Low-Mass Dielectron Production in pp, p-Pb and Pb-Pb Collisions with ALICE	KLEIN, Carsten
09:25	[67] Measurements of electron production from heavy flavor decays in p+p and Au+Au collisions at $\sqrt{s_{NN}} = 200$ GeV at STAR	ZHANG, Shenghui
09:45	Coffee break	
10:15	[28] Non-equilibrium dilepton production in hadronic transport approaches	STAUDENMAIER, Jan
10:35	[33] Open heavy-flavour and electroweak boson measurements via the (di-)muonic decay channel with ALICE at the LHC	SENOSI, Kgotlaesele
10:55	Discussion session
