Digitization Hackathon

Software TIM in Glasgow

Iain Bertram, John Chapman, Paolo Calafiura, Tony Limosani

09 June 2016

- MT testing of Digitization
  - w/o pile-up – works!
  - with pile-up – StoreGate issues related to the fact that StoreGateSvc and StoreGateSvc_Impl are now separated. Paolo is investigating.
- Fixed short-lived heap allocations in the TRT digitization ATLASSIM-2655.
- Looking into cppcheck warnings in digitization
- Investigated reducing pile-up I/O.
