

NanoThailand 2016

Sunday, 27 November 2016 - Tuesday, 29 November 2016

THE GREENERY RESORT KHAO YAI

Scientific Programme

The aim of this conference is to promote international exchanges of discussion between researchers in nanotechnology and practitioners from academia and industry through plenary and invited lectures, oral and poster presentations, as well as workshop on the progress in various fronts of nanotechnology and related topics.

Programme

Nanomaterials & nanostructures

Theory and simulation related to nanosystem

Nano-energy & storage

Environmental nanotechnology

Nano-medicine & biotechnology

Nano-agriculture

Nano-characterization & instruments

Nano-fabrication & manufacturing

Nano-safety

Nano-electronics/systems

Other related topics
