

# New Opportunities in the Physics Landscape at CERN

## Monday, 11 May 2009

### SPS Deep-Inelastic Scattering, including polarized targets - 500/1-001 - Main Auditorium (11:20 - 12:50)

time	[id] title	presenter
11:20	[97] Introduction talk	SCHAEFER, Andreas
11:40	[98] Longitudinal Spin Structure and Generalized Parton Distributions with Muon Beam at COMPASS	D'HOSE, Nicole
12:00	[99] Transverse Spin Structure with Muon Beam and Drell-Yan Measurements at COMPASS	Mr BRADAMANTE, Franco
12:20	[12] The measurement of the W mass at the LHC: shortcuts revisited	DYDAK, Friedrich
12:35	[148] Discussion
