## WG2: Common Characterization and Physics Issues

**Session** | **Location:** Kolympari, Crete, Greece, Room A

**14:00–14:10** **Introductory remarks**

**Speaker**

V. Peskov

**14:10–14:40** **Gridpix/Gossip Developments**

**Speaker**

F. Hartjes

**14:40–15:00**

**Study of energy resolution and avalanche statistics of MICROMEGAS detector**

**Speaker**

P. Colas

**15:00–15:20**

**Single-electron response and energy resolution of MICROMEGAS detector**

**Speaker**

T. Zerguerras

**15:20–15:40**

**Scintillation yield of avalanches in MPGDs**

**Speaker**

J. Veloso

**15:40–16:00**

**RICH upgrade in ALICE and challenges for WG2**

**Speaker**

V. Peskov

**16:00–16:30**

**Discussion: Optimization of the T-GEM based RICH (discussion)**

**16:30–16:50**

**Short remarks on Spark protection**

**Speaker**

V. Peskov

**16:50–17:10**

**Conclusion and outlook**

**Speaker**

V. Peskov
