

Applications: particle physics and medical imaging

Friday 15 July 2016 11:00 (1h 50m)

Applications of photodetectors in high energy physics and medical imaging. Focused on solid state (APDs, SPADs, SIPM) but in context of PMT technology.

Author: CASELLA, Chiara (Eidgenoessische Tech. Hochschule Zuerich (CH))

Presenter: CASELLA, Chiara (Eidgenoessische Tech. Hochschule Zuerich (CH))

Session Classification: Light detection
