

# The Fifth Annual Large Hadron Collider Physics conference (LHCP2017)

## Monday 15 May 2017

### Parallel QCD: I - Haoran 306 (14:00-16:00)

time	[id] title	presenter
14:00	[220] Jet and photon measurements with ATLAS	NACHMAN, Ben
14:17	[221] Measurements of jet production properties in CMS	CONNOR, Patrick
14:34	[222] Heavy Flavour production at LHCb	SPRADLIN, Patrick
14:51	[223] Jet properties in ALICE	Dr MAO, Yaxian
15:08	[224] Jet substructure and algorithms	KIM, Chul Joon KIM, Chul
15:25	[225] Monte Carlo developments and resummation	HIRSCHI, Valentin HIRSCHI, Valentin Dr HIRSCHI, Valentin Jonathan
15:42	[226] Higher order QCD calculations	ZHU, HuaXing

## Tuesday 16 May 2017

### Parallel QCD: II - Haoran 306 (11:00-12:30)

time	[id] title	presenter
11:00	[227] Soft QCD results in pp and pPb with ALICE	ZACCOLO, Valentina
11:17	[228] Measurements of particle production, underlying event and double parton scattering in CMS	DUNSER, Marc
11:34	[229] Collective effects and particle correlation in ATLAS	KEPKA, Oldrich
11:51	[230] Measurements of particle production, soft QCD, and double parton scattering with LHCb	AN, Liupan
12:08	[231] Multiplicity dependence of particle production in ALICE	VOLPE, Giacomo Dr VOLPE, Giacomo

## Wednesday 17 May 2017

### Parallel QCD: III - Haoran 306 (11:00-12:30)

time	[id] title	presenter
11:00	[232] Production of vector bosons in association with jets in ATLAS	MEONI, Evelin
11:17	[233] Measurements of associated production of vector bosons and jets in CMS	Mr AHMAD, Muhammad
11:34	[234] Physics with jets in LHCb	CID VIDAL, Xabier
11:51	[235] Very forward measurements at the LHC	BERRETTI, Mirko
12:08	[236] The xFitter project	GLAZOV, Alexander
