

The Fifth Annual Large Hadron Collider Physics conference (LHCP2017)

Wednesday 17 May 2017

Parallel EWK: I - Haoran 308 (11:00-12:34)

time	[id] title	presenter
11:00	[237] Single boson production and differential cross sections measurements in ATLAS	DEBENEDETTI, Chiara
11:18	[238] Single boson production and differential cross sections measurements in CMS	LEE, Kyeongpil
11:36	[239] Single boson production and differential cross sections measurements in LHCb	XU, Menglin
11:54	[240] NNLO QCD for PT_z and ϕ^*	Dr HUSS, Alexander
12:14	[241] EW precision tests from Drell Yan at LHC	TORRE, Riccardo

Thursday 18 May 2017

Parallel EWK: II - AnTai A300 (11:00-12:40)

time	[id] title	presenter
11:00	[242] Electroweak precision measurements in ATLAS	ARNAEZ, Olivier
11:18	[243] Electroweak precision measurements in CMS	DORDEVIC, Milos
11:36	[244] Impact of EW, QED, mixed QCD/EW corrections in W mass	VICINI, Alessandro
11:56	[245] The global electroweak fit: precision constraints at present and future colliders	Dr DE BLAS, Jorge
12:16	[246] NNLO QCD predictions and pT resummation for V production	FERRERA, Giancarlo

Friday 19 May 2017

Parallel EWK: III - Haoran 306 (14:00-16:00)

time	[id] title	presenter
14:00	[247] Di- and multiboson measurements in ATLAS	YATSENKO, Elena
14:18	[248] Di- and multiboson measurements in CMS	LONG, Kenneth
14:36	[249] VBF and VBS measurements in ATLAS	LORENZO MARTINEZ, Narei
14:54	[250] VBF and VBS measurements in CMS	PIGARD, Philipp
15:12	[251] QCD+EW predictions for multiboson production	POZZORINI, Stefano Augusto
15:32	[252] Pros and cons of EFT interpretation of multiboson production at LHC	GONZALEZ ALONSO, Martin
15:52	[253] Discussion
