

# The Fifth Annual Large Hadron Collider Physics conference (LHCP2017)

## Tuesday 16 May 2017

### Parallel Heavy Ions: I - Haoran 308 (11:00-12:30)

time	[id] title	presenter
11:00	[325] Collectivity in proton-proton, proton-nucleus and nucleus-nucleus collisions	HIRANO, Tetsufumi
11:20	[326] New results on collectivity with ALICE	VAZQUEZ RUEDA, Omar
11:37	[327] New results on collectivity with ATLAS	WOZNIAK, Krzysztof Wieslaw
11:54	[328] New results on collectivity with CMS	MILOSEVIC, Jovan
12:11	[329] New results on collectivity with LHCb	KOPECNA, Renata

# Thursday 18 May 2017

## Parallel Heavy Ions: II - Haoran 309 (11:00-12:40)

time	[id] title	presenter
11:00	[330] Jet and heavy flavor physics in the vacuum and the medium	CACCIARI, Matteo
11:24	[331] New results on jets and heavy flavor in heavy ion collisions with ALICE	AIOLA, Salvatore
11:42	[332] New results on jets and heavy flavor in heavy ion collisions with ATLAS	SICKLES, Anne Marie
12:00	[333] New results on jets and heavy flavor in heavy ion collisions with CMS	KIM, Yongsun
12:18	[334] Fixed-target Heavy Ion Physics at LHCb	MAURICE, Emilie

## Parallel Heavy Ions: III - Haoran 309 (14:00-16:00)

time	[id] title	presenter
14:00	[335] The initial stages of heavy ion collisions and the nuclear modification of the gluon densities	SHAO, Huasheng
14:20	[336] Theory status of quarkonium production in heavy-ion collisions	ZHUANG, Pengfei
14:40	[337] New results on initial state & quarkonium with ALICE	TROMBETTA, Giuseppe
15:00	[338] New results on initial state & quarkonium with ATLAS	TAPIA ARAYA, Sebastian
15:20	[339] New results on initial state & quarkonium with CMS	LEE, Songkyo
15:40	[340] New results on heavy flavor in heavy ion collisions with LHCb	QIN, Jiajia
