## **Operations review 2008 and beam status in the different machines**

*Wednesday, 4 March 2009 09:10 (30 minutes)*

We review the beam performance of all the operational machines in the accelerator complex in 2008, look into the problems encountered, and report case by case on the current status and readiness for 2009 beam production.

**Presenter:** MANGLUNKI, Django

**Session Classification:** Session 1 - Operation in 2008 and outlook for 2009
