## **Status and prospects of the PS magnet consolidation program**

*Wednesday 4 March 2009 14:30 (30 minutes)*

The talk will summarize the findings of the consolidation program implemented on the PS main units, with emphasis on critical aspects which may affect the operation of the PS for up to 10 additional years. An overview of the spare magnet situation for the whole PS complex will also be briefly given, together with a list of proposed actions to complete and consolidate the spare magnet availability.

**Presenter:** TOMMASINI, Davide

**Session Classification:** Session 2 - Accelerator hardware and controls
