

Session Program

7-10 Nov 2016

Workshop on Resummation, Evolution, Factorization

Higgs/DY/QQbar production

University of Antwerp, Klooster van de Grauwzusters
City campus - Building S Lange Sint-Annastraat 7 2000 Antwerpen

Monday 7 November

14:10

Higgs/DY/QQbar production

Session |

Location: University of Antwerp, Klooster van de Grauwzusters, City campus - Building S Lange Sint-Annastraat 7
2000 Antwerpen |

Convener: Francesco Hautmann

14:10–14:40

Lam-Tung relation in Z0 hadroproduction as a probe of gluon TMD

Speaker

Leszek Motyka

14:40–15:10

A study of the non-perturbative structure of TMDs

Speaker

Ignazio Scimemi

15:10

15:40

Higgs/DY/QQbar production: B

Session |

Location: University of Antwerp, Klooster van de Grauwzusters, City campus - Building S Lange Sint-Annastraat 7
2000 Antwerpen |

Convener: Francesco Hautmann

15:40–16:10

Transverse-momentum resummation for Higgs boson pair production with top-quark mass effects

Speaker

Giancarlo Ferrera

16:10–16:40

Factorization and Resummation for Massive Quark Effects in Exclusive Drell-Yan

Speakers

Piotr Pietrulewicz, Piotr Pietrulewicz

16:40–17:30

Discussion

Speaker

Francesco Hautmann

18:00
