

WG5 Status report

SPC meeting
April 22, 2016

Sanjib K. Agarwalla, Pilar Coloma, Walter M. Bonivento

Status report

- We are in contact with other working groups (WG1, WG3, WG4) to settle down the joint sessions.
 - The joint session with WG1 is already settled. We can start inviting speakers right away
 - The other two joint sessions are not finalized yet. But we all agree on the basic idea

Status report

- Regarding the non-joint-sessions (purely WG5):
 - We have written down a list of tentative sessions, with talks and speakers. We have plenty of topics to cover!
 - Need to order the sessions and speakers according to priority and start inviting them. This should not take very long

We would like to start sending invitations right away. We plan to do most of them before the end of the month.

Other things

Questions for the SPC:

- Do we have an idea on how many abstract submissions have taken place already? How many should we expect?
