

**Session Program**

**3-5 Jun 2009**

**14th RD50 Workshop**

***Pixel sensors, 3D and SOI detectors,  
Radiation Monitoring***

Freiburg, Germany

# Friday 5 June

09:00

## Pixel sensors, 3D and SOI detectors, Radiation Monitoring

**Session** | **Location:** Freiburg, Germany

09:00–09:20

### Status of the Planar Pixel Production at CiS

#### Speaker

Anna Macchiolo

09:20–09:40

### Test Beam Measurements with 3D-ddtc Silicon Strip Detectors

#### Speaker

Michael Koehler

09:40–10:00

### Evaluation of novel pixel sensors for future tracking detectors

#### Speaker

Alessandro La Rosa

10:00–10:20

### 3D testbeam at the Diamond light source

#### Speakers

Dr Chris Parkes, Chris Parkes

10:20–10:50

### coffee break

11:10–11:30

### First characterizations of thin SOI and epitaxial n-in-p sensors

#### Speaker

Michael Beimforde

11:30–11:50

### Online Radiation Dose Measurement System for ATLAS experiment

#### Speaker

Igor Mandic

11:50–12:10

### CNM status report

#### Speaker

Dr Celeste Fleta

12:10–12:20

### ALIBAVA - Status of distribution and Discussion on further activities

#### Speaker

Gianluigi Casse

12:20–13:50

### Lunch break

13:50–14:20

### Discussion Session FDS

14:20–14:40

### Discussion Session Pixel and New structures

14:40
