

# POSIPOL 2009

## Tuesday, 23 June 2009

### Compton Sources - Amphithéâtre Dirac (14:00 - 17:30)

| time  | [id] title   | presenter           |
|-------|--|---------------------|
| 14:00 | [2] Polarized gamma-source based on intra-cavity Compton backscattering. | Dr POGORELSKY, Igor |
| 14:30 | [3] Status of experiment with 2-mirror cavity at KEK-ATF                 | MIYOSHI, Shuhei     |
| 15:00 | [6] Present roadmap for the CLIC positron sources                        | RINOLFI, Louis      |
| 15:30 | coffee break   |                     |
| 16:00 | [14] Analytic Study on Compton Rings                                     | Dr BULYAK, Eugene   |
| 16:30 | [20] Recent results from the Compact Light Source                        | Dr RUTH, Ronald     |
