Deep inelastic scattering

- **XVII International Workshop on Deep-Inelastic Scattering and Related Subjects**
 - **2009: 40th** anniversary of the SLAC-MIT experiment (1969)
- **First deep-inelastic scattering experiment:**
 - **observation of scaling at medium x**

Present and future of DIS

- Since 1969, DIS data from HERA and fixed-target experiments provided a wealth of knowledge on the structure of the proton

- Well in the way to have the precision needed to understand LHC physics
