Info

Description: This is the master schedule of the Long Shutdown 2 (LS2) which will happen in 2019-2020. This document gives an overview of the shutdown windows for the Linac2, Linac3, LEIR, Linac4, PSB, PS&TT2, SPS and LHC machine. This will be the reference for the detailed schedules that are being edited by the Facility Coordinators. External reference: Keywords:

LS2 – draft version 0.1

PS Booster LS2 Master Schedule

- Any request of tests inside the shutdown period (blue window) must be declared to **David Hay** (Facility Coordinator) and **Bettina Mikulec** and **Abdel Akroh** (Recommissioning Coordinators)
 - Need to check the availability of the services
 - Need to evaluate the constraint of access
