Chain Safety Investigators Midterm Progress

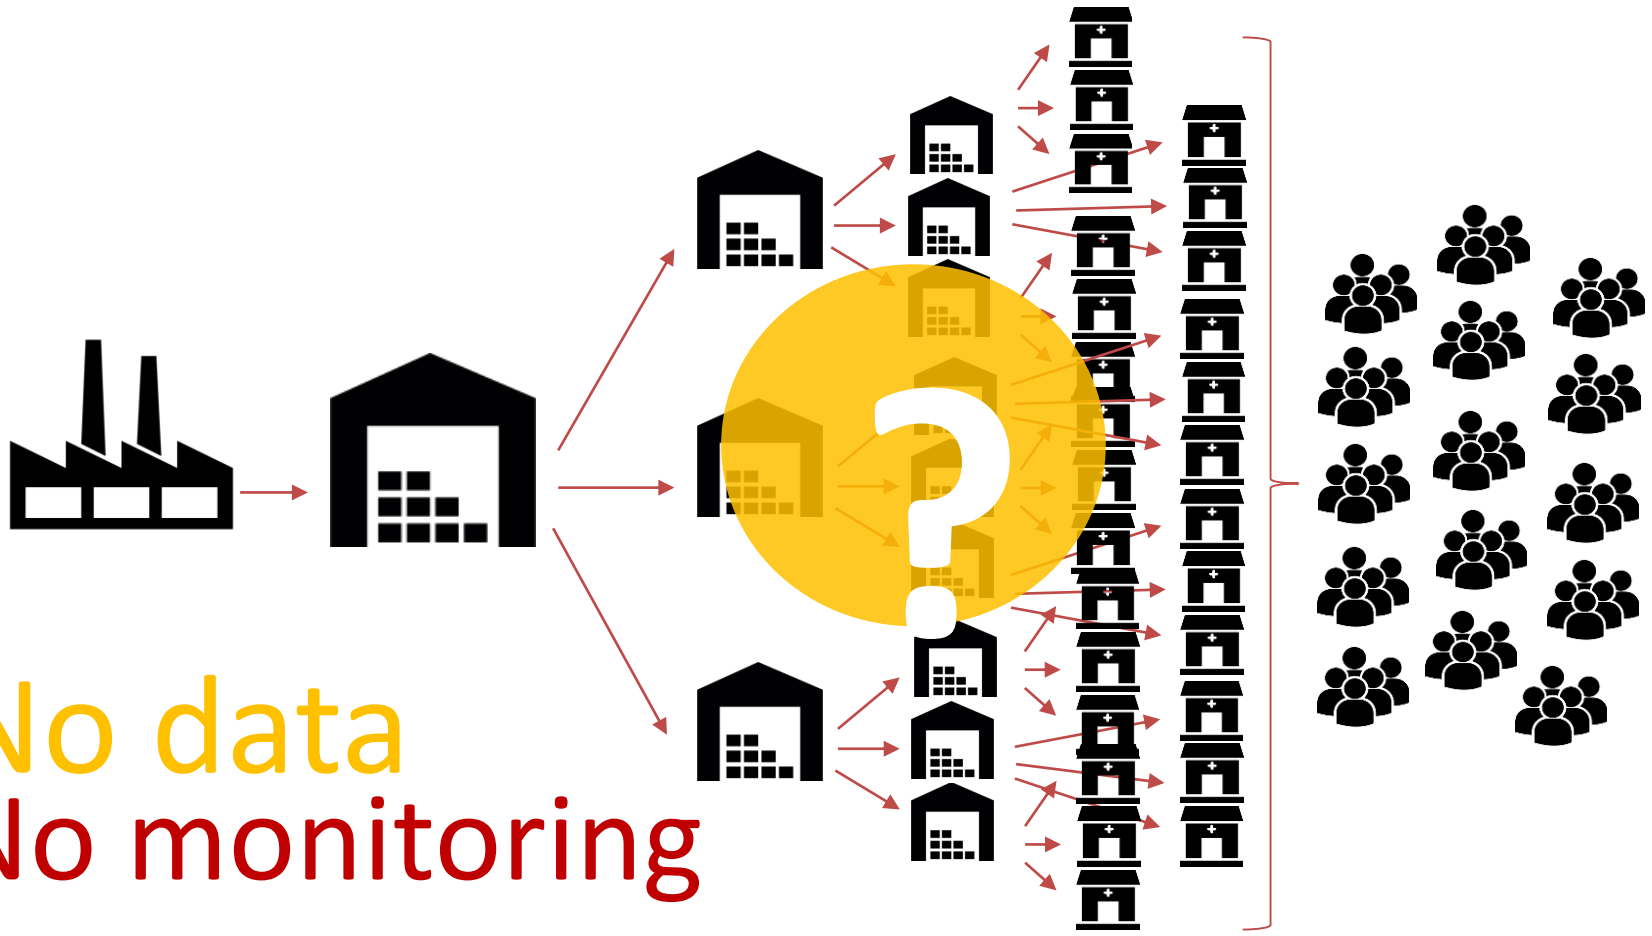

THE PROBLEM

Complex Problem

- Vaccines/Drugs are critical. IOs spend billions of dollars in Vaccines/Drugs every year
- A high performing supply chain is critical for ensuring that reliable health products reach people
- An efficient and effective monitoring is a key factor in ensuring a well functioning supply chain

No data
No monitoring

TRUST and Lack of data at critical decision points in the supply chain

Medical Product Alerts

2013 - 2016

ONLY 20 alerts

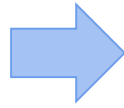

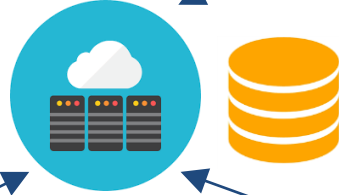

THE SOLUTION

An open source track and trace system
that collects and transport information
along the supply chain

Blockchain
database

THE CHALLENGE

- We need field experience in Logistics and Supply Chain Management
- Providers of healthcare services
- Packaging expertise
