

MPGD Applications Beyond Fundamental Science Workshop

Thursday 15 September 2016

Workshop I: MPGD Applications Beyond Fundamental Science Workshop (09:20 - 10:50)

time	[id] title	presenter
09:20	[4] First results of a combined fast-neutron & gamma-ray LXe imaging detector with gaseous photomultiplier readout	COIMBRA, Artur Cardoso
09:40	[1] CERN developments of optical readout for MPGDs	RESNATI, Filippo
10:10	[7] Optically Read Out Planispherical GEM Detector for Minimizing Parallax Error	SAULI, Fabio
10:30	[6] MPGD-based muon telescopes for archeology: the ScanPyramids project	PROCUREUR, Sebastien
