

MPGD Applications Beyond Fundamental Science Workshop

Thursday 15 September 2016

Workshop II: MPGD Applications Beyond Fundamental Science Workshop (11:20 - 13:00)

time	[id] title	presenter
11:20	[8] MPGDs face2face with art and industry: EDXRF imaging systems	SILVA, Ana Luisa
11:40	[10] GEMPix-based system for the determination of Fe-55 in radioactive waste	MURTAS, Fabrizio
12:00	[5] A robust large area x-ray imaging system based on 100 µm thick Gas Electron Multiplier (GEM)	CARVALHO, Xavier
12:20	[9] (WITHDRAW) Tomographic 2-D X-ray imaging of toroidal fusion plasma using a tangential pinhole camera with gas electron multiplier detector	PACELLA, Danilo
