

Search of Group Leader

28th of June 2016

Maria J. G. Borge

Status

- My term finishes 30th June 2017.
- Expected 1 month overlap with the new ISOLDE leader.
- Hire for 3 years
- Planning:
 - Open the call beginning of July closing end of September.
 - Committee from ISCC to prepare short list of candidates.
 - Presentation of the candidates in the 2nd of November meeting → Select the next group leader

Profile of the next Group Leader

- Demonstrate an outstanding research record in low energy nuclear physics, preferably using radioactive beams, and a track record in research leadership
- Have a broad knowledge of the radioactive beam scene in Europe and worldwide
- Exhibit some knowledge of the ISOLDE facility and physics program
- Hold a tenured position in their home institute from which they can take unpaid leave and to which they can return following their mandate at CERN

Main Duties

- Running the ISOLDE Physics Group in its day-to-day activities
- Acting as spokesperson for the ISOLDE collaboration
- Liaising with CERN management for matters concerning ISOLDE and more generally RIB Physics
- Representing CERN in European contracts involving ISOLDE (currently ENSAR2)
- Follow-up closely the HIE-ISOLDE project and support and boost the Increase of Intensity
- Proactively support to on-going projects TSR, EURISOL-DF
- Co-Organise the next edition of EMIS conference that will take place at CERN at the end of September 2018.
